

This will be my user Sign in/create user screen with logo. after logging credentials and choosing type of user(ie barber or client) you will go to next screen

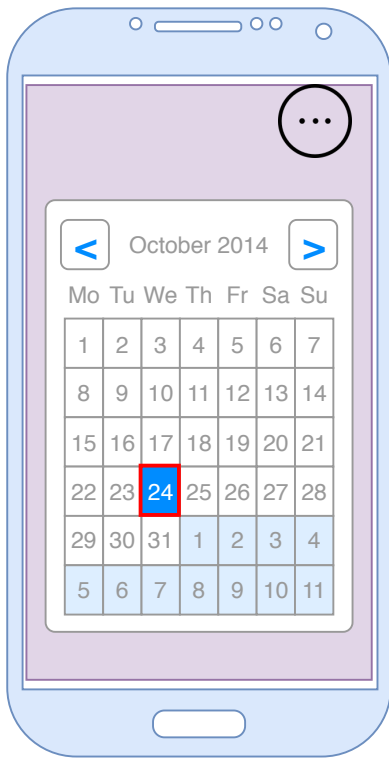

The next screen will be dependent upon what type of user you are and will display options to set up your profile

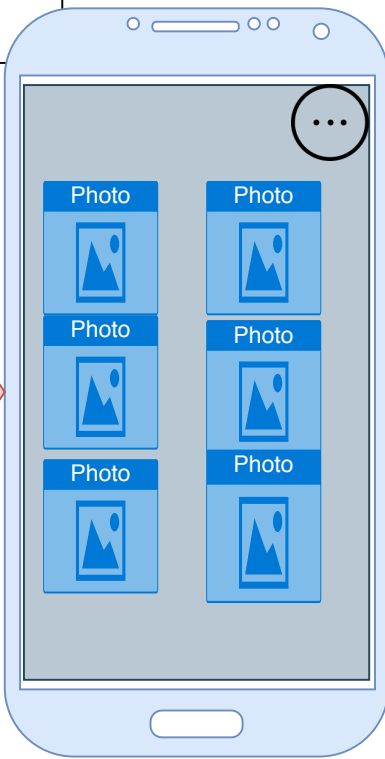

This will be your profile view, from here you can begin to navigate the application.

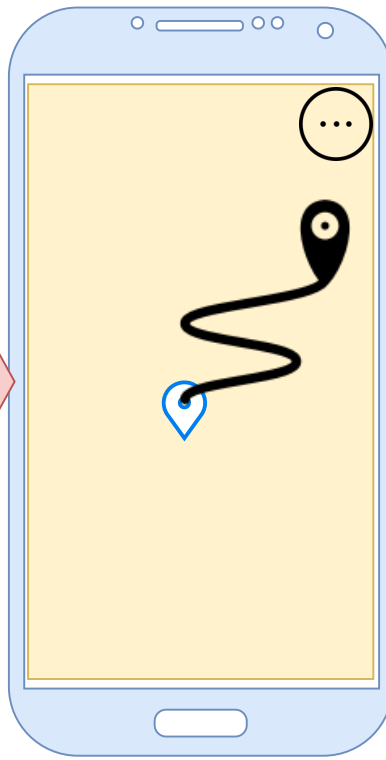

This will be the appointment screen. As a barber you can show all available dates and times. As a client you can view open time slots.

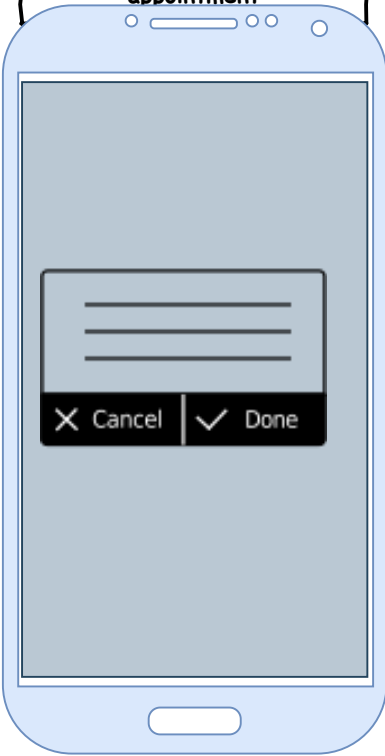

This will be the screen from which a barber can post photos of their work for clients to see.

This screen will help users to locate a shop and have a link to maps for directions.

This screen will have confirmation details(ie time and date) which you can confirm to submit your appointment

These screens can be navigated in any order at the users discretion. By tapping the options icon in the upper corner it will have links to each screen. the user can go back and forth as much as they like. after submitting an appointment request the app will default to the home screen of the app.
